

Fitchburg Trail Vision Public Forum!

Make a Difference in Your Community!

When: Wednesday, March 8th, 2017 at 6:30pm

Where: Fitchburg Central Fire Station
Community Room
33 North Street, Fitchburg

Who Should Attend: Anyone with an interest in current and future trails in Fitchburg. This includes Residents, Local and State Officials, Business Owners, and Others, etc.

The Fitchburg Trails Vision Committee (a subcommittee of the Fitchburg Greenway Committee) and the City of Fitchburg are working on a Trails Vision document for the entire City of Fitchburg. Our purpose is to create a comprehensive planning tool for Fitchburg, *the Fitchburg Trails Vision Plan*. It will be a single source of information for recreational, non-motorized trail visioning, planning and implementation. An accompanying *Trail Guide* will assist residents and visitors in accessing our City's extensive networks of trails, and serve as an important economic development resource.

This event will focus on Fitchburg's current trails/networks, proposed/ potential trails, and connections between trails and with those in surrounding communities. We want to hear from you regarding the future of the Fitchburg Trail developments. What would you like to see? What should the City focus on, where are the priorities?

Please join us in an interactive dialogue at the Fitchburg Central Fire Station Community Room at 6:30pm. We look forward to seeing you!

The Fitchburg Trails Vision Plan process is being conducted with the endorsement of the Fitchburg Board of Parks Commissioners and of Mayor Stephen DiNatale.

For more information, please contact Ralph Baker, chair by email (ralphsbaker27@gmail.com) or by phone (978) 766-5253.
